Have a whale of a Time!

Dear Friends of the Whale,

Whale of a Time is a great way to make a difference and support the growing wave of change that needs to happen on this planet now. Whale of a Time promotes the successful stewardship of our planet, to create a peaceful, morally just, humane and sustainable culture, while ensuring survival of all species.

The **Whale of a Time Workshop** is a fun and hands-on activity, where young and old are able to model whales and other endangered species out of clay, and at the same time learn about the environment, biodiversity and sustainability whilst having a whale of a time!

Participants can not only explore their knowledge about endangered species but also investigate ways we can actively change our behaviours towards a sustainable society with less impact on the environment and find ways to take steps to preserve endangered species. The website has links to everything you need to know on endangered species and sustainable living on our planet at www.whaleofatime.org

Whale of a Time won the London region of the Future Friendly Awards 2011, the NHS Community Wellbeing Competition 2010 and the Making a Big Difference Award 2010. It has been nominated for the London Peace Awards 2010 and 2011, the Archant London Business Awards 2010 and the Archant London Environmental Awards 2009. Find out more about **Whale of a Time Awards** at www.whaleofatime.org/awards.php

Founder of Whale of a Time Irene Schleining commented, "We need to do much more to engage people in caring for our planet as it is our only insurance for the future. That's what I'm trying to do through Whale of a Time."

Richard Yeoward, former Vice Chair WWF, said about Whale of a Time, "Conservation works best when the people are involved."

Hedre (mother, 44) said, "What a wonderful idea to make the children - young and old - aware!"

Andy said, "This experience was really great! I loved it! It was the best event of the whole festival!"
